REMARKS

We affirm the Examiner's statement that applicants have elected species A (as shown in Figure 6). Claims 1-6 read on this species. We have canceled claims 13-19 without prejudice and our considering pursuing these claims in a continuation application.

We are submitting a new declaration that address the deficiencies in the original declaration that were noted by the examiner.

We have addressed the Examiner's objections to the specification and § 112, second paragraph rejections in the amendments to the claims. We have also amended the claims to remove reference numbers.

We acknowledge the Examiner's indication that claims 8-9 would be allowable if amended to be in independent form. We have amended independent claim 1 to include the feature recited in dependent claim 8, which we have canceled.

Prior Art Rejections

The Examiner has rejected claims 1-3 as anticipated by Kalandek (U.S. 6,371,518). The Examiner also rejected dependent claims 4-7, 10-12 as unpatentable over Kalandek alone or in combination with one of Heigl (U.S. 6,273,456), Masuda (U.S. 6,199,898) and Yokoyama (U.S. 6,478,329). These rejections are moot in view of our having amended claim 1 to include the feature recited in allowable claim 8.

We submit that all of the claims are in condition for allowance, which action is requested.
